

Dice Tower Assembly Instructions (version 1.0 – April 3, 2019)

Parts

General Instructions

While assembling the dice tower and tray you should use white wood or craft glue at each tab.

Step 1 - Tower

Take part 1 and insert part 11 into the top slot.

Step 2 - Tower

Insert part 12 into the middle slot of part 1.

Step 3 - Tower

Insert part 7 into the bottom slot of part 1. At this point, you can glue the felt on to each platform. Be careful not to cover the tabs.

Step 4 - Tower

Carefully connect part 2 to the three tabs.

Step 5 - Tower

Place part 4 on the front of the tower with the opening at the bottom so the dice will roll out.

Step 6 - Tower

Place part 3 on the back of the tower. The tower is now assembled.

Step 7 - Tray

Take part 5 and connect part 8 and 9 with the rounded ends at the same end.

Step 8 - Tray

Place part 10 at the rounded end of the tray, and part 6 at the other end. The tray is now assembled. Wait about an hour before using for the glue to dry.
